

About US

At MAXAM we work to offer our clients throughout the world a wide range of products and services, generating solutions, and full technical support to respond to their most specific needs.

Since our founding in 1872 by Alfred Nobel, MAXAM has grown by leaps and bounds. We are now a global company specializing in energy materials. We apply all our talent, energy and knowledge to the mining and civil engineering sectors, anywhere in the world. A lot has changed since Alfred Nobel started the business but some things haven't changed: our dedication to our people to achieve excellence in what we do.

What are we looking for?

We are looking for Russian speaking engineers related to the world of mining (Mining; Geology; Energy, etc) who want to continue their professional development in Maxam with great potential for growth.

Position

International Mining Project Engineer
